FINS MONOFILAMENT LINES

The new range of Fins monofilament lines are perfect for all applications from fly fishing, soft plastics, lure fishing, live baiting and game fishing. The lines are tough, extremely abrasion resistant and have very fine diameters to breaking strain rating. Fins Force Trace is ideal for all applications where a monofilament leader is required. The Super Tough Trace offers extremely high abrasion resistance, shock absorbency, great wet knot strength, low memory to minimise kinking. It has a fine diameter to breaking strain, is super clear for low visibility and is easy to knot or crimp.

INFINITY

FINS INFINITY BRAID

Top water fishing has become incredibly popular over the last few years. Chasing Cod, Barra and other popular sportfish on the surface requires a line with stealth, smoothness and performance that is guaranteed in every Fins product. Fins Infinity is made of genuine UHMWPE (ultra-high-molecular-weight polyethylene) yarns that are coloured black at the point of creation. This makes Infinity braid a no stretch, super strong, durable line with a silky-smooth texture and colour that will never fade. Made in Kentucky USA by America's most experienced braided fishing line manufacturer, Infinity represents the best eight end braid available. Available from 5lb up to 65lb in a range of both consumer and bulk spools.

Our new eight end silky smooth, never fade Black Braid!

Providing unmatched smoothness and everlasting colour, FINS Infinity Braided Line Black is made from eight tightly woven strands of fibre that give you ultra smooth and quiet performance that is perfect for anglers that prefer a smoother braided line.

FINS Infinity Braided Line Black is a no stretch, super strong, durable line with a silky smooth texture and colour that will never fade, which represents the best eight strand braid on the market.

Tests: 5-10-20-30-40-50-65lb / **Spools:** 150yds up to 4,000yds.

FINS 40G COMPOSITE SUPERLINE

At FINS we're very proud of our 40G Composite Superline. For more than 20 years we have brought you consistently high quality braided fishing lines. It is hard to describe in words how superior FINS 40G is relative to all other braids on the market. All the adjectives have been used and mostly overstated, and let's face it every box you pick up claims to be the best. We can honestly say that FINS 40G unique 9 strand composite structure gives it a smooth mono like feel but it's a durable braid with the smallest diameter to strength ratio ever offered.

FINS 40G SPECS

FINS EVOLVE

Fins 'Evolve' is constructed from a next generation Hybrid Fibre Concept (HFC). It has been formulated and designed for tough Australian conditions. The state of the art fibres combine to provide maximum casting distance, ultra smooth presentation and yet still meets all the toughness and reliability that you come to expect from Fins lines. Ultra-thin diameters combine with silky smooth outer coatings provide the softest and most efficient casting line on the market. The round profile suits both combined spin and bait casting reels and is available in hi-vis Chartreuse for all water visibility.

FINS FIGHTER PRT BRAID

Fins Fighter PRT Braid incorporates technological advancements not seen in other braids, tightly braided 4 end multi filaments of 100% Spectra fibre with applied resin infusion resulting in a rounder profile with high abrasion resistance. Firm feel without stiffness allowing for good castability and locked-in colour. This high-performance, high-strength durable braid is ideally suited for most fishing applications.

FINS ORIGINAL PRT BRAID

PRT is a soft, flexible braid with a very tough urethane coating, a great choice for finesse fishing. Flipping and pitching a heavy structure where durability and strength are paramount, is one of the many situations where PRT shines. PRT is the current state-of-the-art braid produced using traditional braid architecture, 30 pound PRT is the diameter of 8 pound monofilament, 20 pound like 6 pound mono, etc. Many experienced braid users find PRT to their liking as it has a familiar feel but with a durability that exceeds their expectations regarding colour retention and fray resistance.

FINS metered coloured Braid, is marked with a repeating pattern of 4 colours, to allow the angler to know exactly how much of the line is off the reel. The line has 25ft colour segments of Yellow, Green, Orange and Blue with a 1ft white mark in the centre of each segment.

MAXIMA ULTRAGREEN

Though often attempted, no other manufacturer has duplicated the exclusive colour and characteristics of Maxima Ultragreen. This line becomes virtually invisible underwater, particularly in freshwater and inshore coastal waters. Ultragreen is also soft and limp, yet retains Maxima's legendary tough, high durability finish for excellent abrasion resistance. Ultragreen is the best all-around line for a variety of freshwater and general saltwater fishing.

Spools and casts well on spinning, baitcasting and larger conventional reels. Ultragreen's invisibility under water also makes it ideal for leader material.

MAXIMA FIBRE GLOW

Fibre Glow is a uniquely coloured, high visibility line that is perfect for tracking lines and detecting subtle strikes. It is ideal for night fishing with "black light" that causes the line to glow luminescent. Fibre Glow incorporates Maxima's high-durability finish for incredible abrasion resistance and at the same time, retains just the right amount of limpness for easy spooling and casting.

MAXIMA CHAMELEON

The Chameleon range has the unique property of changing hues to match the colour of the surroundings, for invisibility in water that is cloudy or lightly stained. Designed for freshwater lakes and rivers, this line has the toughest finish of all line brands on the market. Saltwater anglers have also discovered Chameleon's toughness and it is propensity to change colour hues is perfect for fishing around kelp beds, rocks and other near-shore structure, as well as bouncing the bottom for larger fish and reef dwellers.

MAXIMA CLEAR

The Maxima Clear fishing line is incredibly strong and easy to handle, yet retains Maxima's tough, high-durability finish. It has outstanding knot strength, exceptional abrasion resistance and low memory to improve casting distance.

Maxima Clear meets a wide range of freshwater and saltwater fishing situations, from casting and jigging to trolling and bottom fishing.

MAXIMA TREASURE

MAXIMA

There are monofilament lines and then there is the Maxima Treasure. Normal monofilament lines have a topical coating which gives the lines their abrasion resistance. Maxima have developed an exclusive manufacturing process that allows the abrasion resistant quality of the coating material to be extruded through the entire structure of the line giving Treasure unparalleled abrasion-resistance, even under the toughest fishing conditions.

MAXIMA IGFA TOURNAMENT

One of the key features of Maxima's IGFA Tournament Fishing Line is its durability and overall resistance to both the punishment from saltwater as well as bigger fishes. Since this particular line is designed to hold its own against the rigours of the most challenging of fishes, it delivers solid performances within its own weight class. Tested for both regular angling and tournament fishing, this line follows the International Game Fishing Association requirements to perfection.

MAXIMA TUNA BLUE

The offshore fishing environment is no place for the weak heart, or weak line. With many saltwater species pushing the 1,000-pound mark, strength and durability are paramount. Tuna Blue incorporates the proven characteristics of extreme tensile power to land world-class catches, a molecular structure that delivers the industry's toughest shock resistance and superb abrasion resistance to protect from razor-sharp teeth.

MAXIMA LEADERS & TIPPET

MAXIMA

The suppleness of the tippet section on Maxima's Ultragreen tapered leaders, allows the fly to move naturally and appear real on the water. The stiffness of the Maxima Chameleon monofilament butt allows the leader to roll over freely and lay out more smoothly. This highly effective, blended product is a Maxima exclusive. Maxima Leader Wheels are handy dispensers that conveniently fit into any box or fishing vest. Thanks to a special blend of non-flash components, Maxima's Fluorocarbon has the ability to become virtually invisible to fish. Unlike standard fluorocarbon lines, Maxima's Fluorocarbon is extremely sensitive and strong.

16A & 17A COLOUR RANGE

BOMBER MODEL A

If you were limited to just one crankbait, you would do well making it a Model A. This crankbait is a staple for avid fishermen, and its timeless design, durability, true-running dependability and pure fish-catching abilities define the meaning of "go-to lure." Excellent multi-species lure / True-running dependability / Proven durability

LENGTH INCH	LENGTH MM	WEIGHT OZ	DIVING DEPTH	ITEM CODE
2 1/8	54	3/8	6-8ft	06B06A ..
2 5/8	66	1/2	8-10ft	06B07A ..

BOMBER MODEL DEEP FLAT A

The Bomber Deep Flat A flat-sided crankbait produces a tight swimming action and a subtle presentation that's perfect for cool water and when lethargic fish won't chase lures. The Deep Flat A is similar to a lipless crankbait, but provides far more versatility in retrieves. Suspended fish can be particularly hard-headed and the near-neutral buoyancy of the Flat A gives you the ability to precisely target fish suspending at specific depths. Flat-sided crankbait / Reliable durability / Tournament-proven success.

LENGTH INCH	LENGTH MM	WEIGHT OZ	DIVING DEPTH	ITEM CODE
2 1/2	63	3/8	12-15ft	06B02DFA ..

BOMBER MODEL FAT FREE SHAD

The Bomber Fat Free Shad is one of the most value-packed crankbaits on the market today. By design, these crankbaits are one of the most efficient baits made. That means that while the profile of the lure is big and bulky, the cross-section is narrower which allows the big bill to get them down quick and deep with minimal effort. This design also creates a wide but fast wobble that you can feel all the way to your elbow when you retrieve the lure, and the wobble causes the built-in rattles to create an underwater sound wave to attract fish. All these crankbaits have a beautiful, light-reflective finish that will attract a lot of attention and generate more bites.

LENGTH INCH	LENGTH MM	WEIGHT OZ	DIVING DEPTH	ITEM CODE
3	75	1	12-16ft	06BD7F ..

BOMBER LONG A

Bomber's original Long A design is one of the most effective jerk baits on the market, and is arguably Australia's most popular Barra lure of all-time. Available in 5 different sizes to cover a wide variety of applications as well as 2 deep diving models to get down to those deeper holding fish.

The most popular "all-rounder" is the B15A size - when people talk about the mighty "Gold Bomber", this is the size that they are referring too. The larger BSW16A & BSW17A sizes are the preferred choice for anglers chasing metre-plus Barra in the big saltwater rivers of the Top End. They are also extremely effective in the impoundments throughout North Queensland.

BLUEWATER SAURY

The Saury lure is designed to mimic the popular pelagic baitfish and will be in its element chasing Tuna, Mackerel and all other predatory species. The Saury comes with a 8/0 VMC single hook on the front, and a 9/0 single on the rear, with heavy duty rings and hardware. The heavy-duty, stainless steel, wired through construction ensures the lure will stand up to the toughest sports fish. The reinforced bib design compliments the nose-wired tow point to ensure the lures swim perfectly out of the box and require minimal tuning after use.

BLUEWATER MINNOW

The Bluewater Minnow has been developed with the toughest of Bluewater species in mind. With many conventional lures, the action can quickly become untuned with knocks and bumps, but the in-mould bib and body will ensure the lure will track true and straight time and time again without the need for adjustment. The new design also allows for exceptional speed to chase the fastest pelagic species with it comfortably holding in at 8 knots.

The Ghost mould innovation features colours and designs never seen before in Bluewater lures, these colours will mirror the most predominant baitfish across both the Pacific and Indian Oceans as well as some more wild and unpredictable colours that will entice the toughest predatory fish.

BLUEWATER ROCKET POPPER

LENGTH MM	WEIGHT GRAMS	DIVING DEPTH	ITEM CODE
163	68	SURFACE	03CBP163...

The Bluewater P163 Rocket Popper is an extremely versatile lure that can be fished in a number of different ways. The P163 features a special tail-bias weighting system that serves two main purposes. The heavy tail weight causes the lure to fly straight and true through the air - meaning the P163 casts like a rocket. The tail weighting also causes the lure to sit nose-up in the water during the retrieve. This nose-up position causes the lure to skip and dart along the surface during a straight, high-speed retrieve; perfectly imitating a fleeing Garfish or Saury. The P163 can also be fished with a slow, jerking motion which will see it swim with a "walk the dog" action, much like a Stick bait. Ideal for all blue water casting and will appeal to all large pelagic species.

Bluewater Speed Skirts are a high-speed trolling skirt capable of searching waters at 15/18 knots making them ideal for Tuna, Wahoo and other high-speed pelagic species.

COLOURS

01 - Purple Black

02 - Lumo Green

03 - Lumo

04 - Pink

BLUEWATER TROLLING SKIRT

The Bluewater Trolling Skirts feature unique hand-poured heads, attractive graphics and our trademark Bluewater logo in the eye. Supple silicone skirt, quality finish to the resin head and skirt attachment, two different swimming actions, tried and tested fish-catching colour combinations.

The 4", 6" and 8" Bluewater lures are considered small to medium in size and ideally would perform better if rigged with a single hook. The 8" version could accommodate a two hook shackle rig, however, if the gauge of the hook is heavy this could dampen the action of the lure. It is recommended that chafe tube is used over the leader through the lure head to avoid abrasion. A stopper used above the rigging inside the lure skirt to stop the rigging pressing against the head at the point of connection.

Target species: Billfish, Marlin and Sailfish, as well as other pelagic species including Yellowfin, Bluefin Tuna, Wahoo, Spanish Mackerel and Dolphin.

NORMAN LURES - SPEED CLIPS

Think of Speed Clips as split rings that open. After tying your line to a Speed Clip, squeeze the arms together to open the jaw, then slip one arm completely through the eyelet of your lure until the jaw can freely close. The Speed Clip should move freely on the lure's eyelet. Made of stainless steel, Speed Clips can be used in fresh and saltwater.

2DEADLY

The innovative 2Deadly is one of Lance Butler's most successful designs, and certainly one of his all-time favourites. Thanks to its unique design and profile, this creative lure can be fished as both a surface popper and a shallow diver in the same retrieve. The 2Deadly gives anglers the best of both worlds; with the splash and sound of a popper, and the flash and vibration of a diver.

809 - Black Back Shad

WALLEYE GRUB

The Walleye Grub features a ridged body that provides plenty of water disturbance in addition to that created by the big curly tail and is made of tough, durable plastic that remains supple to the touch and retains its action no matter how long it's fished.

CRAWBUG

The YUM CrawBug is a finesse craw that can be threaded on a jig hook or Texas-rigged for finicky bass. The super-realism of the CrawBug make it fantastic in clear water. It's got a hollow body so you can rig it in various ways, from an internal jig head to Texas rigging.

TIP TOAD

The realistic design of the Tip Toad allows it to plane quickly. The precisely placed tails and feet provide maximum water displacement which creates a unique sound equivalent to fleeing prey. Rigging is easy thanks to the hook bend placement notches that perfectly fit a 4/0 or 5/0 frog hook.

TASMANIAN DEVIL LEAD FREE LURES

Wigston's Lures have developed the new lead-free Tasmanian Devil lure to satisfy the demands of various countries and waterways around the world that have prohibited lead-based lures. From the naked eye the lure will appear and swim exactly like the original model but at the core is a very sophisticated balance of materials that are more environmentally friendly.

RIGGING: 7gm-13.5gm-26gm

Thread the line through the lure and then either, tie it to a split ring attached to a hook, or thread through a bead and tie directly to the hook. **RIGGING: 20gm** With Dual tow points the 20gm allows the lure to be fished at different depths. Running the line (a) will see the lure swim at 2.2 m. Running the line through the special tow point on the back of the lure (b) will make the lure dive to 3.3 m.

TASMANIAN DEVIL BLADE

The Tasmanian Devil 'Devil Blade' features a uniquely designed spinner blade that has been created to match the famous Tasmanian Devil lure. The blade provides a distinct action as it spins through the water. Custom Tasmanian Devil paint designs that have been created specifically for freshwater species. Each lure is equipped with quality terminal tackle and VMC treble hooks.

COLOURS

TASMANIAN DEVIL SPOON

The Tasmanian Devil 'Devil Spoon' lure offers the dual attraction of vibration and flash. As the spoon travels through the water it flutters from side to side and emits a vibration that attracts fish even in cloudy water. The polished underside of the Devil Spoon produces a flash attraction, ideal in clear running water and is a proven trigger for predatory species.

TASMANIAN DEVIL®

TASMANIAN DEVIL LEADCORE LINE

Tasmanian Devil Leadcore is an innovative line that allows a lure or fly to be trolled at varying depths without the aid of a paravane or trolling sinkers. The leadcore trolling line is constructed from tightly braided nylon multi-filament woven over a core of pure lead resulting in a fine diameter line with high visibility colour metering every 10 yards. The colour metering makes it easy to monitor the depth being fished.

TYPE	LB	MTS	CODE
LEADCORE	18	30	18LC1830
LEADCORE	14	100	18LC14100
LEADCORE	18	100	18LC18100
LEADCORE	27	100	18LC27100

TASMANIAN DEVIL MONOFILAMENT LINE

The Tasmanian Devil Mono range of lines are supple and are processed with a real camouflage effect that imitates silt and plankton floating in the water; moreover, the brownish 3D captures the natural essence of a chameleon. When you have the line above water, fluorescent glitter helps you trace its direction easily, but the part in the water where light penetration becomes less, the line turns brown with less reflection. This unique line has excellent knot strength, and the coil memory and shock-resistant performance are improved making it suitable as reel mainline and as the leader.

Any Depth - Any Action - Any Fish

Rod Mackenzie

STUMPJUMPER LURES

Born on the Victorian banks of the mighty Murray River in 1986. The first wooden StumpJumpers fitted the local cod fishing environment perfectly. They dug down deep, had great buoyancy to help them jump over the stumps (hence the name) and were as tough as nails. By 1991, freshwater fishing was a booming industry in this country and there was an almost insatiable demand for cod lures. The only way to satisfy it was to swap the traditional wooden bodies for plastic. In recent times, the demand far outstripped supply and subsequently, the lures are now being manufactured offshore. With the change to plastic, there was also an opportunity to introduce what is still about the world's only truly successful interchangeable bib system.

As unlikely as it sounds, it's an idea that really works. With the deep-diving bib, the No.1 StumpJumper is a great cod lure, but switch to the pointy, shallow running bib and you have a minnow lure capable of taking saltwater speedsters like Mackerel and Tuna or even Barramundi, not many other lures can do that!

STUMPJUMPER REMOVABLE BIB SYSTEM

The proven swimming action and unbelievable anti-snap capabilities of the StumpJumper are combined with an exclusive patented snap-lock bib that lets you instantly alter the lure's action and characteristics by changing to different shaped bibs. With a choice of hot colours and flashing metallic finishes and subtle patterns, you can change the colours of the bibs to get the attention of the fish. Mix and match lure bibs and bodies in a system that makes StumpJumper the most innovative and effective lures available today.

To change curved bibs bend down and pull out.

Flat bibs pull straight out.

JJ's StumpJumper

STUMPJUMPER MEGA

The big brother to the StumpJumper series of lures is the Mega StumpJumper. This specialty lure is a serious lure for those chasing fish at specific depths. With the quality of technology evolving with side scan and almost TV-quality pictures in sounders, this lure allows anglers to hit specific depths with ease and slow troll in the strike zone for longer and better results. A patented removable bib system gives anglers every advantage now rather than relying on the fish to be overactive and chasing a lure at a depth that the fish aren't.

Lure Bib dives
to 2m/6ft

C Bib dives
to 4m/12ft

A Bib dives
to 6m/18ft

B Bib dives
to 10m/30ft+

TOW POINTS

The Mega StumpJumper can be trolled from either lure nose or bib points. Towing from the bib points allows the lure to have a deeper and wider action.

WARLOCK MOTH

The Warlock range of top water Moth lures is uniquely designed and is constructed from tough ABS plastic. Unmatched in attraction and originality, the Moth provides a one-of-a-kind top water presence that fish cannot resist. The Moth is fitted with wings that flap and create a noticeable splash and a unique sound that is proven to trigger aggressive strikes. Designed to mimic a struggling insect on the water surface, the Moth is capable of drawing heart-stopping strikes day or night. Hand-painted finishes with extra strong VMC Spark Point hooks that allow you to target your favourite species with ease.

WARLOCK HARDBAITS **WARLOCK**

The Warlock range of lures is one of the most unique hard-baits currently available on the market. The key feature of the Warlock series profile is our signature S.A.P.™ or Sonic-Amplifying-Panels that are moulded into the underside of the lure's flanks. These scalloped panels reflect ultra-strong micro-vibrations that create an irresistible sonic footprint that is unlike any other hard bait on today's market. This series swims with a tight, rolling action and unsurpassed cycle rate, sending out a strong signal that triggers an instant strike instinct in any nearby predators. Quite simply, the Warlock is unlike any hard bait you've ever used before - the fish just won't know what's hit them when you unleash the Warlock series on your local waterway.

WARLOCK 52 3PK

Each Warlock 52 3pk contains the 3 most popular colours. The 2+mt dive depth will suit most applications.

WORDEN'S ROOSTER TAIL

Worden's
ROOSTER TAIL®

If there was ever an all-round fishing lure, Worden's original Rooster Tail is it. Since the 1950's anglers worldwide have been using Rooster Tails to catch just about anything that swims. The Rooster Tail's pulsating hackle tail and attractive spinning action just seem to make fish strike, many times when nothing else will work.

Worden's
ROOSTER TAIL®

Referred to as the world's most versatile lure, the Yakima Bait Worden's Rooster Tail® Inline Spinner is a necessary addition to your tackle. This spinner has an inline blade construction with a premium clevis that rides on a bearing washer for instant spin. Fish are unable to resist its attractive look complete with a durable painted body, hand-tied multi-feather and pulsating hackle tail. Three colour options per pack.

FLATFISH **FLATFISH®**

FlatFish® is a shallow diving plug that produces high action and vibration that attracts fish and produces a wide, strike-producing wiggle when trolled or reeled at a slow speed. For the best result, tie your line directly to the round-eyed connector snap or figure-eight eyelet provided with the lure. A barrel swivel can relieve line twists associated with spinning reel use and should be placed a few feet ahead of your plug.

BOOYAH COVERT SERIES

The Booyah night time Covert Series spinnerbaits are the ideal option for night time fishing. The unique head design is modified from a traditional Booyah spinnerbait head with a raked-out gill, which offsets the blade torque to keep the bait running true. Featuring black and red skirt colours, as well as a high-quality Hildebrandt blade, this spinnerbait is truly a game-changer for the angler looking for an edge once the sun goes down. Available in two colours and two sizes.

The Micro Pond Magic is tough, durable, catches fish in big lakes as well as ponds and streams. The 1/8oz spinnerbait features a true-running "R" bend wire for incredible vibration and a single Colorado blade that provides the perfect amount of flash and water displacement.

ARBOGAST JITTERBUG

Well respected as THE top water lure for night fishing, the Jitterbug has proven its power to ignite explosive strikes throughout the day. Fred Arbogast's Jitterbug was first introduced in 1937. The Jitterbug has a double-cupped lip, placed at precisely the correct angle, producing the loud, rhythmic, surface-busting sound that is proven to be irresistible to every surface known to feeding fish.

119	20.27	3/4	12-14FT	27FT	33BGENG ..

The Bandit Generator lure is an innovation to the deep-diving minnow crankbait that has proven to catch fish! The Generator Chrome Series features two glow stick insertion points, one in the head and one in the tail of the bait that ensures that fish will find the bait in dirty or nighttime conditions. This added light source calls out to gamefish at extraordinary distances, creating an irresistible flash and glow that triggers massive strikes. The body measures 4-3/4" and weighs 5/8 ounces. Hooked with 3 sharp black nickel trebles. Includes 2 pairs of glow sticks (10hr glow each) along with a tool to remove them.

COLOURS AVAILABLE

Replacement glow sticks 4pk.

GORILLA GRIP GLOVES

For many fishing applications, to light tasks and heavy-duty work, the Gorilla Grip patented gloves are the go-to choice for anglers and the handyman alike. With maximum durability, dexterity and a trusted never-slip grip, Gorilla Grip guarantees superior grip every time. Gorilla Grip gloves are constructed of nylon and dipped with a specialised coating to keep hands protected no matter the application, wet, dry or oily.

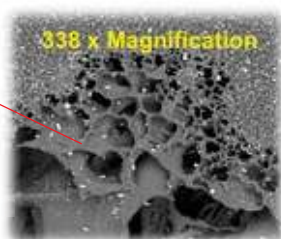

GLOVE FEATURES

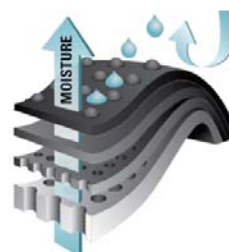

A: Formfitting design B: Breathable nylon shell C: Fitted elastic cuff
D: Patented non slip technology
E: Stain resistant finish

PATENTED TECHNOLOGY

The patented technology draws moisture to the surface of the glove where it quickly evaporates or is transferred back to the inner layers of the glove. This aids in providing maximum grip during both wet and dry applications.

Gorilla Grip is a lightweight, breathable and high dexterity multi-purpose glove with a patented grip coating that provides a maximum grip under any conditions.

Handling Bait and Fish

Fish Scale Texture

Heavy-Duty Disposable

GORILLA GRIP MAX FINGERLESS

The Gorilla Grip Max Fingerless gloves allow for maximum dexterity, comfort and performance. Another feature of these gloves is the extended cuff that protect them from the sun. The gloves have a breathable light knit shell is skin tight and quick-drying and features the patented Gorilla Grip Technology that provides maximum grip in dry, wet and oily conditions.

GORILLA GRIP 3/4 DIP INSULATED

The Gorilla Grip 3/4 Dip Insulated gloves feature an insulated liner for cold weather and fish cleaning use. The 3/4 dip keeps hand dry and the breathable light knit shell is skin tight and quick dry. These gloves also feature the patented Gorilla Grip Technology that provides maximum grip in dry, wet and oily conditions.

ORIGINAL GORILLA GRIP GLOVE

From light chores to heavy-duty projects, the Original Gorilla Grip glove is specialised for maximum durability, dexterity and hand protection. These lightweight gloves allow your hands to breathe during tough tasks while maintaining an unmatched grip. Perfect for any handyman projects and fishing needs.

VEIL GLOVE

The Veil Gloves are a must have for any tackle box. They're lightweight, maintain a grip in the wettest conditions and fit like a second skin that protects hands from the sun. The proprietary polymer technology on the palm pulls moisture away from the surface and provides maximum grip in wet and oily conditions and the Veil gloves also features the exclusive Veil camo.

A5 CUT GLOVE

On the boat or at the cleaning station, Gorilla Grip A5 Cut gloves are a must for every tackle box. This glove features a highly breathable, flexible design with an ANSI level 5 industrial cut protection rating featuring proprietary polymer technology on the palm that pulls moisture away from the surface and provides maximum grip in wet and oily conditions.

RHINOFLEX A5 CUT GLOVE

The Rhinoflex glove is highly-breathable and fits like a second skin allowing for natural movement and dexterity. The tough-but flexible polymer shell delivers maximum impact and abrasion protection. The glove features the ANSI level 5 industrial cut protection rating and the propriety polymer technology on the palm pulls moisture away from the surface and provides maximum grip in wet and oily conditions.

GILLIES VIBE HD

With meticulous attention to detail, the new Gillies Vibe lure combines the realistic soft X-Flex body and the vibration of a hard vibe bait into one. Its uniquely designed forked tail allows added vibrations upon retrieval with a seductive, tight wiggling action that mimics a live bait. Gillies Vibe is the perfect bait for Barramundi, Snapper and many other species. Fitted with extra strong VMC hooks, that allow you to target your favourite species. Gillies Vibe is definitely a great all-round lure for both freshwater and saltwater species.

GILLIES OCKTA

Incorporating Japanese design and technology, the Ockta lure is effective in attracting reef and bottom-dwelling as well as pelagic species. These lures have a unique action and can be fished with most retrieve styles. They can be straight jigged, bounce jigged while drifting and cast and retrieved. With two exceptionally sharp swinging forged hooks set up on Kevlar connectors, hook-up rates are increased. Ockta lures are perfectly balanced as to allow the lure to pulsate the skirts giving the appearance of a swimming octopus. There are 8 sizes from 40gm for the smaller estuary species right through to 300gm for the big bottom dwellers.

35mm/5gms
Code: 16SP5T

MARBLE

With high visibility, sonic blade and feathered hook this lure is at home in all situations including dull light and murky water. Trout, Redfin & Yellowbelly love this lure.

45mm/7gms
Code: 16MARPC

HOGBACK

The Hogback spinner has been on the scene for many years. A large blade topped off with a feathered hook makes this spinner irresistible to many fish, particularly Redfin.

40mm/7gms
Code: 16HOG

MASK

The Mask spinner is a lure for all seasons. Ideal for chasing large Trout and Yellowbelly. It has also accounted for Murray Cod and is a particular favourite for Redfin.

40mm/5gms
Code: 16MASK4

WOBBLER

The Wobbler has been a staple lure for over 50 years. Combining an irresistible wobbling action with a reflective flash the Wobbler has accounted for many different species of fish.

30mm/7gms
Code: 16WOB07SG

BOBBER

The Bobber has been a favourite of the Redfin angler for many years. Effective when fishing in lakes around snags and trees. A straight drop and lift retrieve is very effective.

60mm/20gms
Code: 16BOBB3

COW BELL TROLLING RIG

Simulating a school of fish, this trolling attractor is a classic design with flashing blades attracting Trout to your lure from a distance.

The Trout pack has 103 pieces of tackle, including chemically sharpened Baitholder hooks, sinkers, swivels and floats packed in a tackle box. Bonus spool of line included.

CODE: 28SPTR

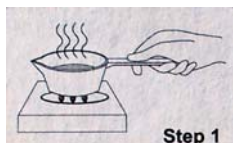

The Snapper species pack contains 101 pieces of tackle with red chemically sharpened Octopus hooks, swivels and slider rigs packed in a tackle box. Bonus spool of line included.

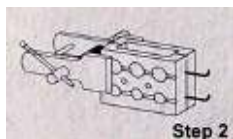

CODE: 28SPSN

GILLIES SINKER MOULDS

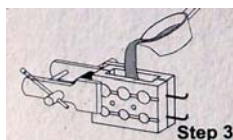

Gillies range of sinker moulds represents excellent value for money by offering a multi-sized array of sinkers per mould. A great way to save money and to recycle lead.

Step 1

Step 2

Step 3

TIPS

Melt lead in a heavy cast iron pot in a well-ventilated area and make sure that the pouring ladle or spoon is dry. Pre-heating the sinker mould will allow the molten lead to flow. Protective clothing and a breathing mask such as a respirator are highly recommended.

CODE: 25LP64 / 25LP84

SNAP-LOC ROD HOLDER

The SNAP-LOC Rod Holder is a unique, one-step, instant strike Rod Holder that's ideal for general light to medium trolling and bait fishing. It's versatile and adaptable to any boat or fishing situation. The Universal Rail & Deck Mount Rod Holder offer many different mounting possibilities. When you place the rod, either spin or bait cast, into the holder, it pushes the front lever down and locks the rear lever over the top of the rod butt. The weight of the rod is sufficient to firmly lock the rod, any additional downward weight, even the drag of a sinker or lure locks the rod more securely in place.

SNAP-LOC KEY FEATURES

- Foolproof locking device
- Suits both spinning and overhead reels
- Additional security lock fitted
- Can be locked on foregrip or rear grip
- Insert allows use of small diameter rod butts
- Overhead reel stays upright
- Vertical & horizontal adjustments
- Heavy duty lift & rotate lock
- Gives flexibility & precise rod direction control
- Can be quickly removed & fitted to another mount
- Slip resistant universal rail clamp
- UV, salt & oil resistant
- Stainless steel components

For spinning reels and overhead reels

CODE : 235LRH

SNAP-LOC

No amount of downward force can dislodge the rod. To remove it, just grab the foregrip and lift inboard while striking at the same time in one smooth action."

- ◆ Each Rod Holder includes All mount options:
- ◆ Universal Rail, Side Deck & Flat Deck/ Pedestal Mount.
- ◆ Stainless Steel bolts also included.

ABOUT SCOTTY

Scotty is recognised as one of the world's leading manufacturers of rod holders and rod holder mounts. With innovative designs and many versatile mounting options, we're sure you'll find the exact combination you're looking for. Rod holders are great for rod storage but are also a very valuable fishing tool that works hand in hand with our Scotty Downriggers, enabling you to troll your lures at a specific depth. Here you will find the right gear addition to suit your fishing needs. For the full range please visit: www.scotty.com

WILDFISH PERFORMANCE WADERS

The Wildfish Performance waders are rugged and softer than traditional PVC waders. They feature 3 layers of anti-sweat fabric with polyester that is great at wicking moisture away from the skin and quick-drying, which makes you more comfortable when wearing all day. They have a built-in chest pocket to organise your personal belongings, as well as H-back adjustable suspenders with buckles. The adjustable fitted wading belt adds safety when deep wading.

Professionally welded and taped seams that seal almost flush to the fabric avoiding chafing.

With fitted sturdy, lined, cleated sole PVC boots that have a very strong, durable seal to the wader.

Colour: Khaki

Sizes available: 7-8-9-10-11-12-13

NEW PRODUCT

Easy fit and adjustable quick release clips for added safety.

3 layer anti-sweat fabric with polyester that is great at wicking moisture away from the skin and quick drying.

Wading belt to create a seal between your body and the wader.

Taped and heat-treated seams ensure a smooth and 100% waterproof finish.

Heavy duty cleated boot

CODE: 35WP ..

WILDFISH WADERS

The Wildfish Waders are constructed from a tough Nylon/PVC material. Taped and heat-treated seams ensure a smooth and 100% waterproof finish. Adjustable, quick-release clips allow you to tailor the fit of the waders while still ensuring enough space for additional clothing and unrestricted movement.

The integrated boot design with cleated sole provides additional grip against slippery surfaces making the waders ideal for all surfaces. Available in full chest wader, or thigh wader styles.

WILDFISH FLY PACKS

Selected by Peter Morse

The Wildfish fly selection packs are perfect for those new to fly fishing and even for some who might be not so new to the sport. There are two groups of packs in the range, freshwater and saltwater. The reality is that there's plenty of overlap. For example, the Trout Streamer Pack would very easily be at home in the kit of a bass fisherman, or in fact a fly fisherman just about anywhere around the country. Conversely, the Bass Pack contains flies that are just as at home in many tropical freshwater systems right across the north and in the Billabong Pack are flies that would light up the eyes of a bass fisherman. The Flats, Inshore and Barra packs have also proven themselves to many fly fishers for their ability to catch fish time after time. All Wildfish Fly Packs have 10 flies per pack that are proven fish takers for that particular application. All flies are hand-tied from the Felty's stable.

SAGE R8 CORE FLY ROD

R8 CORE is focused on maximum versatility & applies a new revolutionary material technology. At its core, Revolution 8 technology traces a direct lineage to Sage's multi-application vision, one shaped by the fishing evolutions happening all around us - from habitats we stalk and waters we frequent, to the flies we fish and the diversity of species we now target. The R8 Core offers effortless energy transfer and a more connected feel.

SAGE SALT HD FLY ROD

In the world of saltwater fishing there is a lot of water out there and with that, a lot of fish species. From calm flats to open seas, the opportunities range dramatically. To put your best foot forward in high stakes fishing, you need a tool built for the exacting conditions of every unique fishery. The SALT HD lineup of rods are constructed differently - each with purpose.

SAGE MAVERICK FLY ROD

Saltwater angling is more often a game of quick shots than long casts. Dropping a fly in front of a cruising tarpon 20ft off the bow can be the difference between success and failure during a day on the flats. In fact, most saltwater fisheries put a premium on getting the fly to the target quickly. From Bonefish cruising the flats, and stripers slashing at bait, they all require a quick cast into "the zone" for high odds at a hookup. The quicker you can lay the fly down, the better the results.

SAGE PAYLOAD FLY ROD

Big fish, big fly. While not always the case, this rule does ring true for many warmwater and saltwater fisheries with anglers casting larger flies than ever before. With a powerful but comfortable casting action, the new PAYLOAD series of rods are designed to help anglers cast those heavy lines and big flies more effectively. Whether launching a double-articulated streamer to the far bank with the 689-4 or dredging the deeper water with the 989-4, anglers will notice how easy it is to hurl a heavy line and big fly with the PAYLOAD.

SAGE SONIC FLY ROD

Whether laying down dry flies with finesse or delivering streamers to distant reaches, the SONIC family of rods provides uncompromised versatility, with a balance of power and feel. Delightfully crisp and lightweight, the SONIC has a level of performance that stands out from the crowd with a fast action taper designed to cover a wide range of fishing applications from dry fly, streamers, to nymphing - floating lines to sinking.

SAGE CLICK FLY REEL

Sage's new Click Series reels are a performance and cosmetic upgrade from the original Click series. The enhanced Click features larger arbor diameters creating a larger palming area for fighting fish and quicker line retrieval while maintaining backing capacities. The Click aesthetic has been elevated through new hole patterns and a refreshed, modern design that speaks to its lightweight and minimalist yet functional characteristics. The proven performance of the adjustable click and pawl drag design of the original is featured in this new Click reel series.

- * Alignment dots for easy rod setup
- * 1 year warranty

Moderate/Fast Action

REDINGTON BEHEMOTH FLY REEL

The Behemoth reel combines the most powerful drag in its class with stunning aesthetics that push the limits of fly reel design. The unique, un-machinable, die-cast construction is coupled with a durable, interlocking, large-arbor spool design that both looks and functions like a premium reel. A super-heavy duty carbon fibre drag package brings the utmost in drag strength, reliability and performance to the family. Sized for your favourite 5-weight trout rod, and all the way up to saltwater ready, big-game sizes.

- Most powerful drag in its class, Adjustable, Carbon Fibre
- Large arbor design speeds retrieve and reduces line memory
- Oversized drag knob for easy adjustment
- Easily converts to left or right hand retrieve
- Deep V-Spool for increased backing capacity
- Twin moulded, soft-touch ergonomic handles
- Nylon reel case included and Lifetime warranty

RIO's Bonefish Leaders have a powerful taper design that easily turn over typical bonefish flies.

TOOTHY CRITTER

CODE	SIZE
43R24177	7.5ft / 30lb
43R24178	7.5ft / 45lb

Tough bite-resistant wire attached top a tapered nylon leader. Maximum strength and perfect for all species with sharp teeth.

CRANKY KIT

Code: 43R26011

Change lines quickly and efficiently as fishing conditions change. Simply wind the line off the reel through the rod on to the fly line spool that is provided, unloop the line from the backing, then loop the new line to the backing and wind the new line on to the reel.

HEADCASE

Code: 43R26052

RIO Headcase is the ultimate shooting head case with tough 6mm storage bags arranged to allow easy viewing and flipping of heads, as well as mesh pockets for storing leaders and tippet spools. The bags are large enough to hold regular shooting heads, skagit shooting heads and long Scandinavian shooting heads and 10 bags per case leave plenty of room for a varied selection of RIO heads.

HEAD WALLET

Code: 43R26053

Zipper closure at the top to keep your leaders safe and secure and the mesh helps dry them more quickly.

LEADER WALLET

Code: 43R26055

Comes with 6 pockets made from re-sealable plastic so your leaders stay in place and organised.

RIO TIPPET SPOOLS

We have an incredible offering of the highest quality tippet material for the freshwater and saltwater fly fisher, each with their own formulation and material choice to ensure that the tippet does exactly what it was designed to do - cast after cast, after cast. Whether you are fly fishing for Trout, Bonefish, Permit, Tarpon, Stripers or even toothy critters, you will find RIO has the right tippet material for you. .
For the full RIO tapered leaders and tippet range, visit: www.rioproducts.com

FLUOROFLEX STRONG TIPPET

30YDS	SIZE	LB	30YDS	SIZE	LB
43R22431	7X	2.6	43R22437	4X	7.3
43R22432	6.5X	3.1	43R22438	3X	8.8
43R22033	6X	3.8	43R22439	2X	11.2
43R22034	5.5X	4.5	43R22440	1X	13.3
43R22035	5X	5.2	43R22441	0X	15.5
43R22036	4.5X	6.1			

Ultra-Strong, 100% Fluorocarbon with exceptionally high tensile strength and exceptionally easy to tie knots. The high break strength to diameter ratio makes this a fantastic fluorocarbon for the Trout fly fisher.

TWO-TONE INDICATOR

30YDS	SIZE	LB
43R22097	6X	3.0
43R22098	5X	4.2
43R22078	4X	6.0
43R22079	3X	7.0
43R22080	2X	8.5
43R22081	1X	11.0

Opaque two tone 8" sections of fluorescent pink and fluorescent chartreuse, or black and white color changing tippet with highly defined hard color changes. These color breaks create maximum contrast to allow anglers to get visual cues when tight line nymphing.

POWERFLEX WIRE BITE

CODE	LBS	LENGTH
43R22145	20	15FT
43R22146	30	15FT
43R22147	40	15FT

A high quality super smooth braid that is 100% reliable. A good compromise between thinness and the ability to make blind splice loops. This backing is easier to knot than most other brands that are very thin but have too tight a weave for a blind spliced loop. Low stretch.

POWERFLEX TIPPET

30YDS	SIZE	LB	110YDS	SIZE	LB
43R22001	7X	2.4	43R22020	7X	2.4

43R22008	0X	15	43R22027	0X	15

RIO Powerflex Tippet is a high knot strength copolymer nylon tippet that features superb knot strength, stretch and suppleness to make this an excellent nylon tippet material for almost all trout fly fishing needs. It is a light grey color to enhance its camouflage ability on the water.

POWERFLEX PLUS TIPPET

50YDS	SIZE	LB
43R22031	7X	2.5
43R22032	6X	4
43R22033	5X	6
43R22034	4X	7.5
43R22035	3X	9.5
43R22036	2X	12

RIO'S Powerflex Plus Tippet is the strongest nylon tippet material ever made, with tensile strengths up to 20% more than regular tippet. A highly technical formulation of the nylon copolymer manufacturing process has resulted in this prodigious strength increase, without compromising knot strength or suppleness.

FLY LINE BACKING

CODE	LBS	COLOUR
43R20500	20	CHART
43R20501	30	CHART
43R20510	20	ORANGE

A high quality super smooth braid that is 100% reliable. A good compromise between thinness and the ability to make blind splice loops. This backing is easier to knot than most other brands that are very thin but have too tight a weave for a blind spliced loop. Low stretch.

FLUOROFLEX FRESHWATER

30YDS	SIZE	LB
43R22113	7X	2
43R22114	6X	3
43R22115	5X	4
43R22116	4X	5

43R22204	20
20YDS	
43R22205	25

RIO's Fluoroflex Saltwater Tippet is medium stiff and made from 100% fluorocarbon material. A tough saltwater tippet, the Fluoroflex is abrasion resistant, super strong, and easy to knot. Great for casting the largest of flies and in tough winds, this tippet is perfect for all saltwater species.

HARD MONO SALTWATER

30YDS	LB
43R22421	8
43R22422	10
43R22423	12
43R22424	16
43R22425	20
43R22426	25
43R22427	30

RIO's Hard Mono Saltwater tippet is a very stiff, super abrasion-resistant nylon tippet material. Ideal for casting the largest flies and in tough winds to get the very best turnover.

FLEX CAMERA

The SPYPOINT FLEX gives you the function and performance choices you want, adapting the camera on your smart phone app to your exact needs and preferences, still shots, video, timers and more. The FLEX captures 33MP photos and transmits 1080P videos with sound to the SPYPOINT APP. Receiving incredible photos and videos is easier than ever because the FLEX auto-connects to virtually any cellular network in the area thanks to Dual-Sim configuration and optimised antenna.

KEY FEATURES

- Dual-SIM for Multi-Carrier Auto-Connectivity
- 100 ft. Flash & Detection Range
- Remote Firmware Updates
- 33MP Photos
- 1080p Videos with Sound
- Video Transmission
- Photo Transmission
- Optimized Antenna
- 0.3s Responsive Trigger
- Test & Format Buttons
- Four Capture Modes
- GPS Enabled

Code: 83FLEX

LINK-MICRO-LTE CAMERA

The LINK-MICRO-LTE from SPYPOINT continues the legacy of the MICRO family, offering incredible performance and opening the door to the definitive mobile scouting solution, at a price that you can afford.

The LINK-MICRO-LTE is a photo-mode-only camera, with multi-shot capabilities. All camera settings are managed in the app, where the full compliment of advanced scouting tools like enhanced AI species filters, mapping and weather integration can be found.

The LINK-MICRO-LTE takes advantage of the LTE cellular network for improved camera reliability and longevity.

Code: 83LMLTE

FEATURES

- ◆ 80-foot detection and flash range
- ◆ 5-second trigger speed
- ◆ 10 megapixels

LINK MICRO S LTE CAMERA

The LINK-MICRO-S-LTE marries the incredible size and value of our MICRO family with our integrated solar panel and lithium battery technology to deliver an incredibly value-packed and functional trail camera. The LIT-10 rechargeable battery pack is included!

The LINK-MICRO-S-LTE from SPYPOINT gives you the incredible battery life of our integrated solar panel technology and free LIT-10 rechargeable lithium battery pack, with the value you would expect from our LINK-MICRO family. Save money by making fewer trips to your hunting property to change batteries, check cards, and by never buying batteries again.

The LINK-MICRO-S-LTE connects to the LTE cellular network, ensuring that the camera can provide years of service in the ever-evolving landscape of cellular network technology.

The LINK-MICRO-S-LTE comes with the new LIT-10 rechargeable lithium battery pack included, which is charged directly by the integrated solar panel.

The LIT-10 battery pack replaces the standard battery tray of the LINK-MICRO design, for foolproof installation.

FEATURES

- ◆ 10 megapixels
- ◆ 0.4 second trigger speed
- ◆ 80-foot detection and flash range

Code: 83LMS

SPYPOINT APP

The SPYPOINT app is your central hub for device and photo management, as well as putting SPYPOINT advanced scouting tools to use so you can formulate a better plan when hunting seasons arrives. See your photos without the time, cost, or disruption of going to your camera is a great benefit, but it's just the beginning of what the SPYPOINT app can do.

Free to download and easy to use, the SPYPOINT App is a complete management and scouting tool to help save you time and money and make you more successful in the field. SPYPOINT offers the only free photo transmission plan for cellular devices, but if you need more than 100 photos sent per month, you can choose a paid plan that fits your needs.

YOUR ENTIRE HUNT IN THE PALM OF YOUR HAND

- ◆ Download FULL-HD Photos
- ◆ Sort & Tag Favourite photos in the Gallery
- ◆ View Multiple Device Status & Manage Settings
- ◆ BUCK TRACKER Species Filter
- ◆ Activate a Device
- ◆ Set & Control Notifications

BARNETT YOUTH BOWS

As the popularity of archery continues to surge, families across the country are realising the many benefits of getting kids involved in this dynamic sport. Strength, focus and confidence are just a few of the reasons archery is captivating many families across the country, Barnett provides an entire line of youth bows to help introduce new archers to the sport and challenge advancing marksmen to sharpen their skills. If you want to start youth archers off on the right draw, equip them with a Barnett bow.

COMPLETE TARGET ARCHERY SET

Everything you need for youths to get out and start loving the sport of archery. The Barnett Complete Target Archery Set includes 1 recurve bow, 2 arrows, quiver and target with stakes, for a "one stop shop" shooting experience. This is a great way to get outside and enjoy the outdoors. Great for all youths and accommodates right and left handed shooters.

BARNETT VORTEX LITE YOUTH BOW

Just like their clothes, kids can grow out of archery equipment quickly. Not with Barnett's Vortex Series! Parents (and their wallets) love Vortex bows for their adaptability. The Vortex Lite is a compound bow for preteens and teenagers; designed to grow right along with young archers as their skills and statures advance. The draw length and draw weight both adjust with included modules and instructions. The bow itself is outfitted with all the features they need: oversized dual cams, three-pin fibreoptic sight, three fibreglass arrows, two-piece attached quiver and more. Plus, they'll feel cool with a bow decked out in Mossy Oak Break-Up Country just like mum and dad.

FEATURES

- Modular adjustments based on archer's stature and strength
- Draw length adjusts in 1" increments
- Draw weight adjusts 18-29 lbs
- Constructed to ATA/AMO Standards
- Right-handed bow
- Let-off 60-70%
- All-new look with Mossy Oak Break-Up Country wrap
- 3-pin Bright-Glo" fiberoptic sight with pins visible in lowlight
- Oversized dual cam system
- Synthetic string and cable system
- Package serves as carrying case
- Adjustable arrow rest

BARNETT 1276 QUICKSILVER YOUTH BOW

Bring new archers into the fold with the Quicksilver recurve bow. A light 15-pound draw weight and ambidextrous grip make this a great introductory bow for ages 5 through 8. Additional features include a soft-touch reinforced grip, finger rollers and adjustable sight pin. The Quicksilver youth archery set also comes packaged with lightweight fibreglass arrows so kids can start honing their archery skills right away!

BARNETT 1269 WILDHAWK YOUTH BOW

The Wildhawk youth compound bow features a light 18-pound draw weight with a 15- to 22-inch draw length, making it manageable for first-time archers as young as age 5. The reinforced ambidextrous grip adjusts for both right- and left-handed shooting. (Dealer assistance may be required.) Additional features include an arrow rest, soft-touch finger rollers and an adjustable sight pin. Comes decked out in new Mossy Oak Bottomland camo wrap so kids feel like they're practicing with a bow just like mom and dad's!
