

2026 - 2027
FISHING TACKLE CATALOGUE

SERVICING THE FISHING TACKLE INDUSTRY FOR OVER 98 YEARS

It was 98 years ago when John Malcolm Gillies began servicing the fishing tackle industry to satisfy the needs of the fishing public with local hand tied trout flies. From those humble beginnings J.M.Gillies evolved and began to distribute fly fishing tackle before it moved into general fishing tackle, firearms and other sporting goods. The evolution continued with the acquisition of exclusive fly fishing products and many other premium brands that we distribute to the trade.

HIGHEST QUALITY, INNOVATIVE AND MOST SOUGHT AFTER BRANDS

As we celebrate our 97th year of service to the fishing tackle industry, J.M.Gillies are still proud to be 100% Australian owned and continue to offer the highest quality, innovative and most sought after brands of fishing tackle. Many of our lures are designed in Australia and sell throughout the world. This season, we have some new and exciting products on offer, as well as improvements and new colour schemes for some current lures in our range.

It's also super comfy, its light compression giving you a secure fit and a flattering shape. With a heap of features like handy pockets, moisture-wicking and anti-microbial fabric, as well as quick-drying properties.

409: Sargasso Sea

668: Ultra Pink

HUK PURSUIT VOLLEY SHORT / H6200052

Made with a breathable, soft, and stretchy fabric blend of polyester and spandex, and its 4-way stretch gives you the ultimate freedom of movement both in and out of the water.

100: White

TROPICAMO STRAW HAT / H300056-100

Designed to provide extra sun protection for those seriously hot days on the water and features an adjustable chin strap.

FINS ORIGINAL PRT BRAID

4 STRAND

PRT is a soft, flexible braid with a very tough urethane coating, a great choice for finesse fishing. Flipping and pitching a heavy structure where durability and strength are paramount, is one of the many situations where PRT shines. PRT is the current state-of-the-art braid produced using traditional braid architecture, 30 pound PRT is the diameter of 8 pound monofilament and the 50 pound like 10 pound mono. Many experienced braid users find PRT to their liking as it has a familiar feel but with a durability that exceeds their expectations regarding colour retention and fray resistance. Only stocked in 30 and 50lb yellow 4000yd spools.

WIND-ON LEADER

The Bluewater range of Wind-On Leaders are designed with the Bluewater angler in mind. These longer-length leaders come in poundages ranging from 100lb, through to 400lb and up to 7.5mts in length to cover most Bluewater fishing situations. With the wind on leaders, you can wind the leader through the rod and bring the fish in close to the boat where you have better control.

ASARI LURE AID

The Asari Lure Aid could be the best investment you ever make as it is designed to go down your line, amongst the snags and catch onto your lure so that you can free it. Because you have this device, you won't be too worried about fishing in those snag ridden areas where the fish are most likely to be. Available in 2 sizes: 125g & 250g.

HELPFUL HINT

Back off the line once you have sent the Asari Lure Aid down the line. This will ensure you are pulling on the strong line and won't break the lure off and lose it.

MAXIMA ULTRAGREEN

Though often attempted, no other manufacturer has duplicated the exclusive colour and characteristics of Maxima Ultragreen. This line becomes virtually invisible underwater, particularly in freshwater and inshore coastal waters. Ultragreen is also soft and limp, yet retains Maxima's legendary tough, high durability finish for excellent abrasion resistance. Ultragreen is the best all-around line for a variety of freshwater and general saltwater fishing.

Spools and casts well on spinning, baitcasting and larger conventional reels. Ultragreen's invisibility under water also makes it ideal for leader material.

MAXIMA CHAMELEON

The Chameleon range has the unique property of changing hues to match the colour of the surroundings, for invisibility in water that is cloudy or lightly stained. Designed for freshwater lakes and rivers, this line has the toughest finish of all line brands on the market. Saltwater anglers have also discovered Chameleon's toughness and its propensity to change colour hues is perfect for fishing around kelp beds, rocks and other near-shore structure, as well as bouncing the bottom for larger fish and reef dwellers.

MAXIMA

MAXIMA IGFA TOURNAMENT

One of the key features of Maxima's IGFA Tournament Fishing Line is its durability and overall resistance to both the punishment from saltwater as well as bigger fishes. Since this particular line is designed to hold its own against the rigours of the most challenging of fishes, it delivers solid performances within its own weight class. Tested for both regular angling and tournament fishing, this line follows the International Game Fishing Association requirements to perfection.

BLUEWATER MINNOW

The Bluewater Minnow has been developed with the toughest of Bluewater species in mind. With many conventional lures, the action can quickly become untuned with knocks and bumps, but the in-mould bib and body will ensure the lure will track true and straight time and time again without the need for adjustment. This lure design also allows for exceptional speed to chase the fastest pelagic species with it comfortably holding in at 8 knots.

The Saury lure is designed to mimic the popular pelagic baitfish and will be in its element chasing Tuna, Mackerel and all other predatory species. The Saury comes with a 8/0 VMC single hook on the front, and a 9/0 single on the rear, with heavy duty rings and hardware. The heavy-duty, stainless steel, wired through construction ensures the lure will stand up to the toughest sports fish. The reinforced bib design compliments the nose-wired tow point to ensure the lures swim perfectly out of the box and require minimal tuning after use.

COLOUR RANGE

NORMAN LURES - SPEED CLIPS

Think of Speed Clips as split rings that open. After tying your line to a Speed Clip, squeeze the arms together to open the jaw, then slip one arm completely through the eyelet of your lure until the jaw can freely close. The Speed Clip should move freely on the lure's eyelet. Made of stainless steel, Speed Clips can be used in fresh and saltwater.

CLASSIC 120 INDIGENOUS RANGE

Australia's No.1 Barra lure! Used for casting and trolling in all situations, the Classic 120 Barra is now available in a limited range of 6 indigenous patterns designed by legendary aboriginal lure designer Lance Butler. The Classic 120 range of lures have an unmatched tournament-winning heritage and is the first choice of all serious Barramundi anglers.

A great all-rounder that will take most larger predators in both saltwater and freshwater. Available in +3 and +10 models.

LENGTH MM	WEIGHT GMS	DIVING DEPTH	SWIMMING ACTION	ITEM CODE
120	23	1mt/3ft	WOBBLE	02CL12I..
120	23	3mt/10ft	WOBBLE	02CL12ID..

Legendary lure maker Lance Bulter:

I am a proud "Bandjin" man. A "Saltwater" man. Saltwater is my life bringing its deep connections to sea and it's coastal waters, waterways and it's fringes that has shaped me as a Barramundi fishing guide all my life. Past down to me by my father through his teachings, traditions and connections to country.

01 - Birds or Prey

This lure to me represents "Flight and Hunting". The Jabiru being a graceful hunter spearing his prey with his beak and the Egret "The barra bird" telling me where the bait and the barramundi are.

02 - Fire

This lure to me represents "FIRE" The Red is the red-hot coals, and the White represents white ash. Camp-fire, our "Sitting down place" were we cook our traditional tucker connecting me to country and telling of stories.

03 - Journey

This lure to me represents the journey from saltwater country to freshwater resting place. A place of deep connection, spirituality and cleansing country.

04 - Turtle

This lure to me represents the emergence from nesting in the sand and their journey to saltwater country. Their enduring wisdom and steadiness guiding them through life.

05 - Life Cycle

This lure to me represents "Life Cycle and Renewal" When the Barra breed and hatch in the salt they make their way to freshwater country to grow and get fat up in amongst the waterlilies.

06 - Hunter

This lure to me represents the "Hunters" The crocodile wise and cunning. The sea eagle is my father watching and guiding me. Both show me where the barramundi will be.

CLASSIC 120

Australia's No.1 Barra lure! Used for casting and trolling in all situations, the Classic 120 Barra has an unmatched tournament-winning heritage and is the first choice of all serious Barramundi anglers. A great all-rounder that will take most larger predators in both saltwater and freshwater.

KILLALURE TROPIC LOLLY

All Killalure Tropic Lolly lures are fitted with BKK Hooks.

The new Killalure Tropic Lolly lure features the latest in advanced hooks and hardware. Made from TPE (Thermoplastic Elastomer) this lure offers several advantages, primarily its exceptional flexibility, lifelike movement, durability, and environmental friendliness, making it a great choice for mimicking live bait and attracting fish in a variety of conditions; it can bend, stretch, and move naturally in the water while remaining resilient to damage. They are ideal for Australian native species including Barra and Trevally. They are available in 3 sizes and varying proven fish catching colours in each.

KILLALURE 2 DEADLY

The innovative 2Deadly is one of Lance Butler's most successful designs, and certainly one of his all-time favourites. Thanks to its unique design and profile, this creative lure can be fished as both a surface popper and a shallow diver in the same retrieve, giving anglers the best of both worlds. With the splash and sound of a popper, and the flash and vibration of a diver. It can be run in the sub surface like a normal diving lure with a wiggle and rolling action or you can bloop it as you would a standard popper. While brilliant for Barra, this lure is awesome for just about any predatory fish. Available in 3 sizes: 60mm / 85mm / 120mm.

LONG A BOMBERS AND PACKS

Bomber's original Long A design is one of the most effective jerk baits on the market, and is arguably Australia's most popular Barra lure of all-time. Available in 5 different sizes to cover a wide variety of applications as well as 2 deep diving models to get down to those deeper holding fish. The most popular "all-rounder" is the B15A size - when people talk about the mighty "Gold Bomber", this is the size that they are referring too. The larger BSW16A & BSW17A sizes are the preferred choice for anglers chasing metre-plus Barra in the big saltwater rivers of the Top End. They are also extremely effective in the impoundments throughout North Queensland.

ARBOGAST JITTERBUG

Well respected as THE top water lure for night fishing, the Jitterbug has proven its power to ignite explosive strikes throughout the day. Fred Arbogast's Jitterbug was first introduced in 1937. The Jitterbug has a double-cupped lip, placed at precisely the correct angle, producing the loud, rhythmic, surface-busting sound that is proven to be irresistible to every surface known feeding fish.

The Warlock range of lures is one of the most unique hard-baits currently available on the market. The key feature of the Warlock series profile is our signature S.A.P.™ or Sonic-Amplifying-Panels that are moulded into the underside of the lure's flanks. These scalloped panels reflect ultra-strong micro-vibrations that create an irresistible sonic footprint that is unlike any other hard bait on today's market. They swim with a tight, rolling action and unsurpassed cycle rate, sending out a strong signal that triggers an instant strike instinct in any nearby predators. Quite simply, the Warlock is unlike any hard bait you've ever used before - the fish just won't know what's hit them when you unleash the Warlock series on your local waterway.

TASMANIAN DEVIL LEAD FREE

Wigston's Lures have developed a lead-free Tasmanian Devil lure to satisfy the demands of various countries and waterways around the world that have prohibited lead-based lures. From the naked eye the lure will appear and swim exactly like the original model but at the core is a very sophisticated balance of materials that are more environmentally friendly. Available in 20 colours.

TASMANIAN DEVIL LEADCORE LINE

Tasmanian Devil Lead core is an innovative line that allows a lure or fly to be trolled at varying depths without the aid of a paravane or trolling sinkers. The lead core trolling line is constructed from tightly braided nylon multi-filament woven over a core of pure lead resulting in a fine diameter line with high visibility colour metering every 10 yards. The colour metering makes it easy to monitor the depth being fished.

TASMANIAN DEVIL TASSIE TAILS

The Tasmanian Devil “Tassie Tails” is a vibrating spinner, with a pulsating hackle tail that drives the fish crazy, making them a very productive lure to catch Trout, Bass, Redfin and other freshwater species. The lure's design ensures good hookup ratios and minimal maintenance and has the ability to attract fish in different conditions. Available in 3 sizes (1/8, 1/4 and 3/8oz) and 8 different colors to suit various fishing conditions and target species. New to the range this season, are the Tassie Tails 5 packs. Each Tassie Tails pack contains the 5 most popular colours for their respective weights and will be a welcome addition to your tackle box.

The Tasmanian Devil 'Devil Spoon' lure offers the dual attraction of vibration and flash. As the spoon travels through the water it flutters from side to side and emits a vibration that attracts fish even in cloudy water. The polished underside of the Devil Spoon produces a flash attraction, ideal in clear running water and is a proven trigger for predatory species.

GORILLA GRIP GLOVES

For many fishing applications, from light tasks to heavy-duty work, the Gorilla Grip patented gloves are the go-to choice for anglers and the handyman alike. With maximum durability, dexterity and a trusted never-slip grip, Gorilla Grip guarantees superior grip every time. Gorilla Grip gloves are constructed of nylon and dipped with a specialised coating to keep hands protected no matter the application, wet, dry or oily.

GLOVE FEATURES

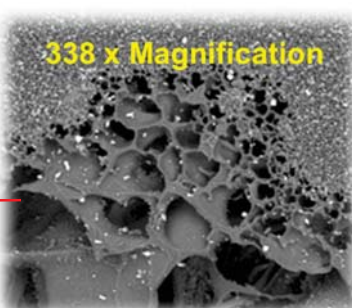

Gorilla Grip is a lightweight, breathable and high dexterity multi-purpose glove with a patented grip coating that provides a maximum grip under any conditions.

PATENTED TECHNOLOGY

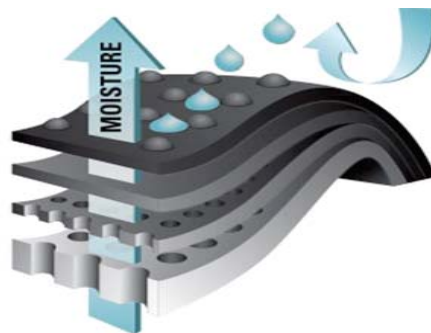

The patented technology draws moisture to the surface of the glove where it quickly evaporates, or is transferred back to the inner layers of the glove. This aids in providing maximum grip during both wet and dry applications.

A: Formfitting design **B:** Breathable nylon shell
C: Fitted elastic cuff **D:** Patented non slip technology
E: Stain resistant finish

338 x Magnification

Gorilla Grip gloves give you an unrivaled grip in oily, grimy, or wet conditions. Inspired by the auto repair industry which demands a high-caliber grip for the griest of jobs, our NEVER-SLIP GRIP Technology is a must-have for fishing enthusiasts, outdoorsman and for extreme sports.

ORIGINAL GORILLA GRIP GLOVE

From light chores to heavy-duty projects, the Original Gorilla Grip glove is specialised for maximum durability, dexterity and hand protection. These lightweight gloves allow your hands to breathe during tough tasks while maintaining an unmatched grip. Perfect for any handyman projects and fishing needs.

Sizes: S-M-L-XL-2XL Large **Codes:** 15GGOS-M-L-XL-2XL

GORILLA GRIP VEIL GLOVE

The Veil Gloves are a must have for any tackle box. They're lightweight, maintain a grip in the wettest conditions and fit like a second skin that protects hands from the sun. The proprietary polymer technology on the palm pulls moisture away from the surface and provides maximum grip in wet and oily conditions and the Veil gloves also features the exclusive Veil camo.

Sizes: M-L-XL-2XL Large **Codes:** 15GGVM-L-XL-2XL

GORILLA GRIP A5 CUT GLOVE

On the boat or at the cleaning station, Gorilla Grip A5 Cut gloves are a must for every tackle box. This glove features a highly breathable, flexible design with an ANSI level 5 industrial cut protection rating featuring proprietary polymer technology on the palm that pulls moisture away from the surface and provides maximum grip in wet and oily conditions.

Sizes: L-XL Large **Codes:** 15GGA5L-XL

STUMPJUMPER SPINNERBAIT

The NEW StumpJumper spinnerbait has been designed by leading spinnerbait designer Glen Casey in consultation with legendary Cod angler Rod Mackenzie. The rotating blades on the StumpJumper Spinnerbaits create flash and vibration to attract fish from a distance, particularly in murky or windy conditions. Because the wire arm deflects obstacles and the hook points upward, they are highly effective at moving through submerged vegetation, submerged timber, and weeds without getting snagged. They can be retrieved at various speeds—fast near the surface or "slow-rolled" along the bottom. They create intense flash and vibration to imitate baitfish. With weights and colour options all hand selected by Australia's leading Cod anglers they are sure to perform.

JJ's StumpJumper Spinnerbait

COLOUR RANGE

JJ's StumpJumper

STUMPJUMPER GHOST

The StumpJumper Ghost incorporates a dual chamber mould to allow internal translucent and reflective patterns that entice fish to strike. We have paired this new design with the latest 4X BKK Trebles for the ultimate hookup rate and 4X strength. The dual depth action and all of the features from the classic model all still remain unchanged.

All StumpJumper Ghost lures are fitted with BKK hooks

JJ's StumpJumper

STUMPJUMPER LURES

Born on the Victorian banks of the mighty Murray River in 1986. The first wooden StumpJumpers fitted the local cod fishing environment perfectly. They dug down deep, had great buoyancy to help them jump over the stumps (hence the name) and were as tough as nails. By 1991, freshwater fishing was a booming industry in this country and there was an almost insatiable demand for cod lures. The only way to satisfy it was to swap the traditional wooden bodies for plastic. In recent times, the demand far outstripped supply and subsequently, the lures are now being manufactured offshore. With the change to plastic, there was also an opportunity to introduce what is still about the world's only truly successful interchangeable bib system. As unlikely as it sounds, it's an idea that really works. With the deep-diving bib, the No.1 StumpJumper is a great cod lure, but switch to the pointy, shallow running bib and you have a minnow lure capable of taking saltwater speedsters like Mackerel and Tuna or even Barramundi, not many other lures can do that!

STUMPJUMPER REMOVABLE BIB SYSTEM

The proven swimming action and unbelievable anti-snag capabilities of the StumpJumper are combined with an exclusive patented snap-lock bib that lets you instantly alter the lure's action and characteristics by changing to different shaped bibs. Mix and match lure bibs and bodies in a system that makes StumpJumper the most innovative and effective lures available today.

To change curved bibs bend down and pull out.

Flat bibs pull straight out.

JJ's StumpJumper

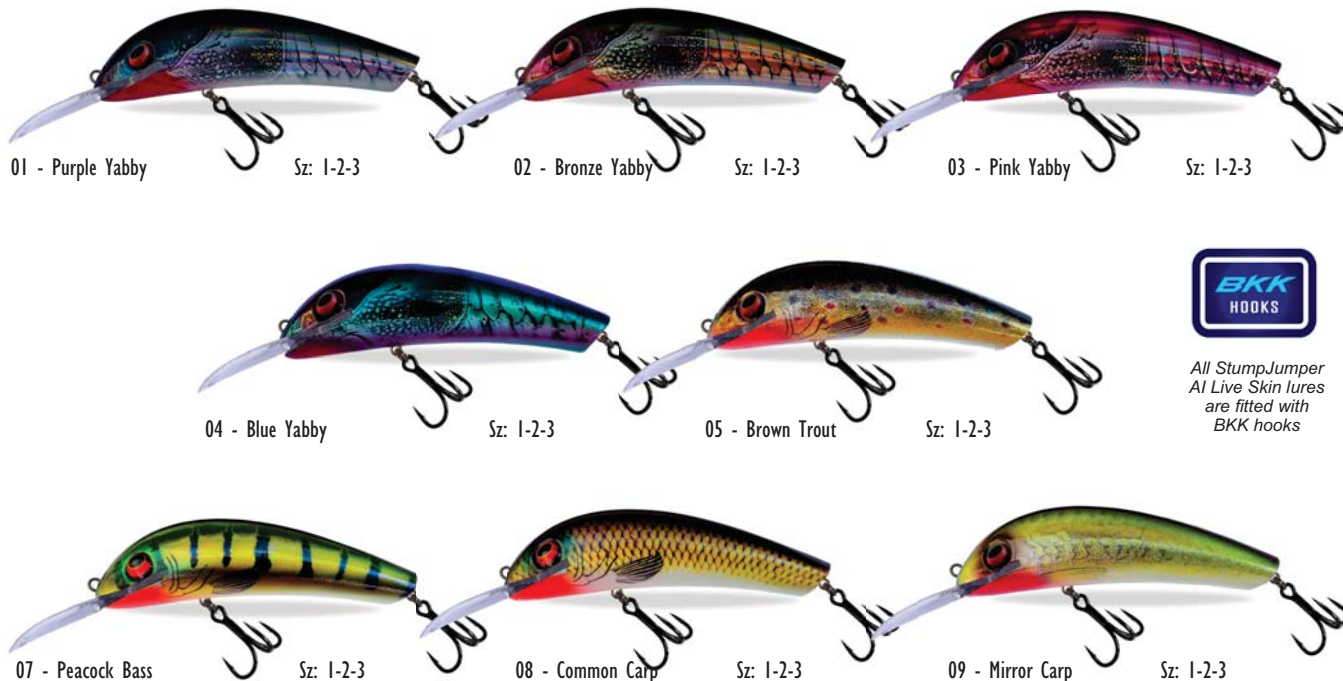

STUMPJUMPER AI LIVE SKINS

JJ's StumpJumper

AI SKINS

StumpJumper AI is the ultimate in both design and new hardware. Cutting edge software has led to the development of new designs never seen in Cod and native fish lures. We have combined these new designs with the latest in BKK 4X Trebles to ensure the best hooking power on the market. The dual depth action and all of the features from the classic model all still remain unchanged.

REBEL LIVEFLEX PACKS

The new Rebel Liveflex Packs are Scent-infused to draw in fish and entice more bites. Durability to last all day with the flexible realism needed to fool wary or pressured fish. Likelike shapes and colours designed to mimic natural prey. Pre-rigged on our unique KEG head jig for the most lifelike appearance and natural movements. Great for: Ned Rigging, bouncing through current, dragging bottom, swimming, drop-shotting, split-shot rigging, or rigging weightless for twitching.

GILLIES SPINA LURES

Red

Green

Trout

The Trout Spina is a true classic when it comes to lure design. These lures are perfect for use in small streams, rivers and lakes where Trout and Redfin just can't resist this lure. They are available in 2 different sizes and in 3 different colours.
3.5 grams / 30mm
5 grams / 35mm

Red Col Codes: 16SP3TR / Code:16SP5R

Green Codes: 16SP3G / Code:16SP5G

Trout Codes: 16SP3T / Code:16SP5T

GILLIES MARBLE

With high visibility, sonic blade and feathered hook this lure is at home in all situations including dull light and murky water. Trout, Redfin & Yellowbelly love this lure.

45mm/7gms
Code:16MARPC

GILLIES HOGBACK

The Hogback spinner has been on the scene for many years. A large blade topped off with a feathered hook makes this spinner irresistible to many fish, particularly Redfin.

40mm/7gms
Code:16HOG

GILLIES MASK

The Mask spinner is a lure for all seasons. Ideal for chasing large Trout and Yellowbelly. It has also accounted for Murray Cod and is a particular favourite for Redfin.

40mm/5gms
Code:16MASK4

GILLIES WOBBLER

The Wobbler has been a staple lure for over 50 years. Combining an irresistible wobbling action with a reflective flash the Wobbler has accounted for many different species of fish.

30mm/7gms
Code:16WOB07SG

GILLIES BOBBER

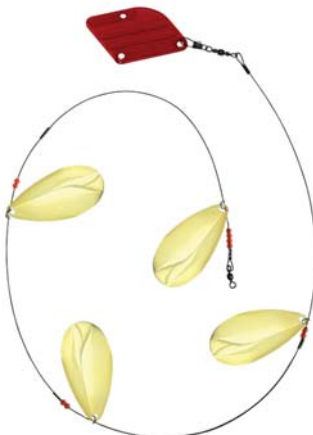

The Bobber has been a favourite of the Redfin angler for many years. Effective when fishing in lakes around snags and trees. A straight drop and lift retrieve is very effective.

60mm/20gms
Code:16BOBB3

GILLIES COW BELL TROLLING RIG

Simulating a school of fish, this trolling attractor is a classic design with flashing blades attracting Trout to your lure from a distance.

The Bream pack contains chemically sharpened Long Shank and Baitholder hooks, as well as swivels and ball sinkers packed in a tackle box. Bonus spool of line included.

CODE: 28SPBR

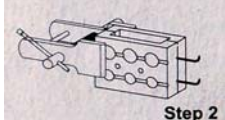

GILLIES SINKER MOULDS

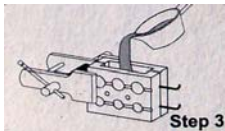

Gillies range of sinker moulds represents excellent value for money by offering a multi-sized array of sinkers per mould. A great way to save money and to recycle lead.

Step 1

Step 2

Step 3

TIPS

Melt lead in a heavy cast iron pot in a well-ventilated area and make sure that the pouring ladle or spoon is dry. Pre-heating the sinker mould will allow the molten lead to flow. Protective clothing and a breathing mask such as a respirator are highly recommended.

Spring loaded cushioned rests

SNAP-LOC ROD HOLDER

The SNAP-LOC Rod Holder is a unique, one-step, instant strike Rod Holder that's ideal for general light to medium trolling and bait fishing. It's versatile and adaptable to any boat or fishing situation. The Universal Rail & Deck Mount Rod Holder offers many different mounting possibilities. When you place the rod, either spin or bait cast, into the holder, it pushes the front lever down and locks the rear lever over the top of the rod butt. The weight of the rod is sufficient to firmly lock the rod, any additional downward weight, even the drag of a sinker or lure locks the rod more securely in place.

SNAP-LOC KEY FEATURES

- Foolproof locking device
- Suits both spinning and overhead reels
- Additional security lock fitted
- Can be locked on foregrip or rear grip
- Insert allows use of small diameter rod butts
- Overhead reel stays upright
- Vertical & horizontal adjustments
- Heavy duty lift & rotate lock
- Gives flexibility & precise rod direction control
- Can be quickly removed & fitted to another mount
- Slip resistant universal rail clamp
- UV, salt & oil resistant
- Stainless steel components

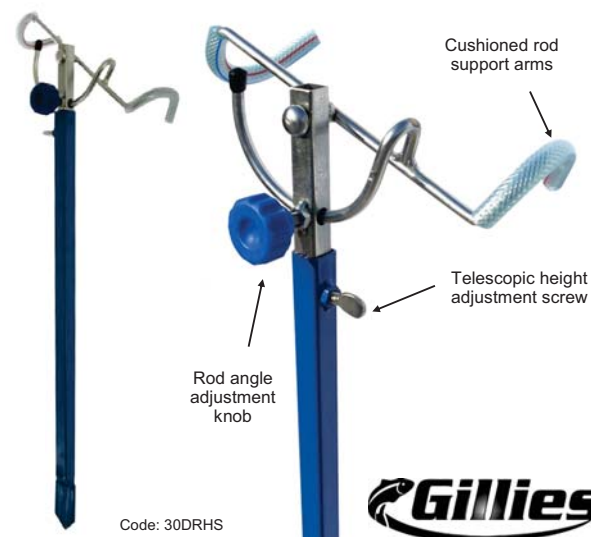

Code: 23SLRH

Gillies

ABOUT SCOTTY

In 1952, Blayne Scott and his wife Almeda started a small company in Victoria, British Columbia with the intent of pioneering the use of plastics to manufacture fishing lures and other marine products. From their humble beginnings, Scotty Manufacturing Ltd. evolved to produce thousands of products under the Scotty trademark, focused on the fishing, marine, outdoor and firefighting industries worldwide. Over the years Scotty has continued crafting products for their passionate customer base. With a team of employees dedicated to finding inventive solutions to continually improve their products. Since 1952, Scotty's goals have remained the same: design and build outstanding sport fishing equipment backed by best-in-class service.

Spray protected positive-drive depth counter and Kevlar drive belt by Optibelt™ The lowest amperage draw of any downrigger made with less than 1/3 the battery draw than some of the competition.

LUNA SEA CUSH-IT

Luna Sea was founded and is owned by Mick Saunders, an avid fisherman, who has developed several creative solutions to problems he and other anglers have experienced over the years. Luna Sea's products like the Cush-it have brought anglers peace of mind, comfort, and more enjoyment to the sport! When you purchase a Luna Sea product, you can be assured that it is a product of the highest quality.

CUSH-IT ELITE BASS

The Cush-It Elite Bass Rod Float is perfect for a variety of applications, and they especially shine when throwing big swimbaits, and ripping big spoons off ledges. Elite Bass (3/4" - 1 1/16").

Blue

Code:31CI11002

Black

Code: 31CI11028

CUSH-IT ALL SPECIES

All Species by Luna Sea is an all-around bruise stopper! All Species is a great option for smaller gamefish like musky, salmon, and catfish, but some anglers still use it for large, saltwater gamefish as well. Fits 3/4" to 1 1/4" Fresh Water and Salt Water.

Col: Yellow

Code:31CI10005

- ◆ Attaches in seconds
- ◆ Reduces bruising
- ◆ Won't slip or twist during battle
- ◆ Floats rods

CUSHION IT

Cush-It is the only lightweight, durable fishing rod accessory that provides all-day comfort by cushioning you from your rod butt.

FLOAT IT

Cush-it provides peace of mind by making sure your expensive fishing rods and lures float if they go overboard.

Bringing comfort, convenience, and enjoyment to the sport of fishing. Lightweight, durable, foam fishing rod accessories for freshwater and saltwater fishing.

WILDFISH FLY PACKS

Selected by Peter Morse

The Wildfish fly selection packs are perfect for those new to fly fishing and even for some who might be not so new to the sport. There are two groups of packs in the range, freshwater and saltwater. The reality is that there's plenty of overlap. For example, the Trout Streamer Pack would very easily be at home in the kit of a bass fisherman, or in fact a fly fisherman just about anywhere around the country. Conversely, the Bass Pack contains flies that are just as at home in many tropical freshwater systems right across the north and in the Billabong Pack are flies that would light up the eyes of a bass fisherman. The Flats, Inshore and Barra packs have also proven themselves to many fly fishers for their ability to catch fish time after time. All Wildfish Fly Packs have 10 flies per pack that are proven fish takers for that particular application. All flies are hand-tied from the Felty's stable.

WILDFISH WADERS

Wildfish Waders are constructed from a tough Nylon/PVC material. Taped and heat-treated seams ensure a smooth and 100% waterproof finish. Adjustable, quick-release clips allow you to tailor the fit of the waders while still ensuring enough space for additional clothing and unrestricted movement.

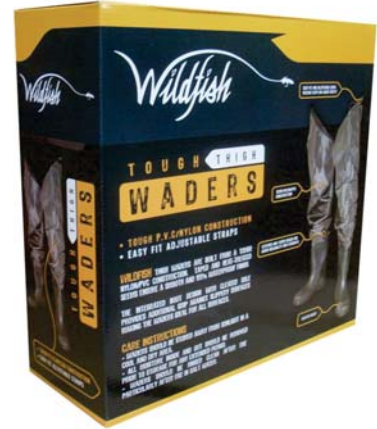

The integrated boot design with cleated sole provides additional grip against slippery surfaces making the waders ideal for all surfaces. Available in full chest wader, or thigh wader styles.

Colour: Dark Green

Sizes available: 7-8-9-10-11-12-13

Founded in 1980 by renowned rod designer Don Green and quickly joined by Bruce Kirschner (formerly of K2 Skis), Sage was created with one idea in mind - to build the world's finest performance fly fishing equipment. Using innovative, world-class materials and years of experience gained while working with Fenwick and Grizzly rod companies, Don revolutionized the fly fishing world. Today, Sage continues to seek performance advantages through new materials and designs. Since Sage handcrafted our first rod in 1980, Perfecting Performance has been the ethos. It steers Sage's never-ending pursuit of new material technologies, innovation of rod actions, and engineering of reel designs.

At Redington it's about experiencing the sport of fly fishing through a non-traditional lens and engaging anglers and non-anglers alike. It's with this in mind that we create our product lines. Redington designs fly fishing gear from an adventurous perspective, exploring the past, present and future of the sport and redefining how it could be better, more beneficial, less expensive, and more intuitive. For Redington, it's visualizing everyone's needs and exploring designs and technologies to bring quality performance products that are approachable on all sides of the equation, from aesthetics to price.

In 1990, Jim and Kitty Vincent founded RIO in the mountains of Idaho on the idea that exceptional fly fishing products should be built by anglers for anglers. More than twenty five years later, we're still in Idaho and driven by that same ethos. Most of us here are passionate fly fishing bums, wading all day in cold, clear Idaho trout streams, lighting delicate dries and heaving huge streamers - hooking, (losing), landing, turning loose fish after fish... what a grind. We won't even mention the horror of having to battle tarpon after bonefish after permit in the balmy turquoise tropics, or braving the wrath of angry chrome in BC. RIO has demonstrated passion, innovation and a pure love for the sport through its development of the industry's highest performance fly lines. And the great news is, we will continue to research, design and refine our products to ensure they are your preferred line of choice for years to come.

SAGE ENFORCER FLY REEL

Born of the performance of our renowned THERMO big game Bluewater reels, the Sage ENFORCER has been updated and fine-tuned for the power, reliability, and durability needs of the saltwater flats angler. Designed with peak performance in mind, the ENFORCER offers everything the flats angler needs in a reel, whether taming the explosive runs of double-digit Bonefish or putting the brakes on the freight train pull of triple-digit tarpon. Simply put, this is the ultimate saltwater reel for flats and heavy duty fly fishing.

- 50% Higher Drag than Spectrum Family / • Enlarged and Improved Seals
- Increased Durability / • More Rigidity / • New Radius Cornered Reel Foot

SAGE SHIFT LT FLY REEL

The ultra-light SHIFT LT comes equipped with Sage's proprietary, Pacific Northwest-sourced, sealed-carbon drag package [SGS], featuring a new sealing system with redundant internal seals to block water intrusion and internal corrosion. A numbered One Revolution Drag Knob, found throughout the series, enables easy adjustment and provides reliable, consistent, and repeatable drag pressure.

With 39 individual settings - each accessible through a single rotation of the drag knob - anglers can effortlessly tune the system to suit the specific target species at large.

POWER R8 FLY ROD

Enter the POWER R8. Made to make fast more finesse-able, designed to cruise at the line speeds necessary for into-the-backing-knot shots, and built with the kind of R8-exclusive reserve power that handles the heaviest heads and rigs, POWER R8 gives you the keys to explore the inconceivable. It's your ticket to chase what others might call unreachable.

The newest addition to the R8 family, POWER R8 expands on the series' trademark versatility with a surge of velocity- perfect for commanding control and distance in the most technical conditions. Like every rod in the R8 lineage, POWER R8 is shaped by evolving challenges and real-world demands. But with its ultrafast action, POWER R8 adds another gear - taking over where moderate, fast, and some salt-specific actions max out.

SIGNAL FLY ROD

From saltwater initiations to new fishery and species explorations, consistent success comes down to dialing in the elements we can control to crush the ones we can't. That's why Sage SIGNAL is thoughtfully designed for the kind of intuitive performance that puts you in command of the outcome. Whether it's short, punchy shots to fast-approaching targets or long, subtle deliveries to meandering, migratory tarpon, this far-reaching, fast-thinking rod family comes ready for anything with an ultra-responsive action and the kind of saltwater stamina that sets it apart from the slackers. Tune in and transcend with Sage SIGNAL.

ARROW FLY ROD

The Sage Arrow is a new, dark grey fly rod, positioned as a successor to the Sage Sonic, featuring a design like the higher-end Sage X, offering a modern, fast action for various freshwater scenarios with excellent performance in various freshwater situations, from technical dry fly fishing to nymphing. The Arrow delivers excellent casting performance, line speed, and accuracy, consistent with Sage's reputation for innovation and high-quality graphite construction, noted for its clean looks and potential to be a top performer in Sage's lineup at a competitive price point in the mid-to-high range.

SALT R8 FLY ROD

More strength and fight were an obvious upgrade, yet few salt rods, especially in the heavier weights, achieve the importance of feel for fine touch shots and precise presentations. Shaping a taper that brought this increased touch into the equation took more time. Yet after a long residence in the birthplace of saltwater fly fishing, and working directly with the experienced guides there, our rod designers found the right profile and fiber alignment that delivered strength, fine touch presentation, and a more intuitive sweet spot to a class of rods that have long had a reputation as unwieldy, unforgiving and difficult. With the SALT R8, gone are the days of sacrificing the feel and touch in your saltwater rod.

R8 CORE FLY ROD

R8 CORE is focused on maximum versatility & applies a new revolutionary material technology. At its core, Revolution 8 technology traces a direct lineage to Sage's multi-application vision, one shaped by the fishing evolutions happening all around us - from habitats we stalk and waters we frequent, to the flies we fish and the diversity of species we now target. The R8 Core offers effortless energy transfer and a more connected feel.

CLASSIC R8 FLY ROD

While the new CLASSIC R8 rods are a culmination of our most advanced materials, componentry, and application-specific tapers to date, the aesthetics span the decades of Sage history and fly fishing itself. Throughout the rod are colors and accents that call to mind the early days of the company, yet they're presented in unquestionably modern forms and details. We've incorporated the highest-quality and most progressive parts and components, from cork and handle shape to guides, wood insert, and reel seat. Overall, the rods are timeless and fit for any generation.

FLY REELS

REDINGTON RUN FLY REEL

The RUN fly reel was designed for the angler looking for a lightweight reel option with the stopping capabilities of a carbon fiber drag system. It's durable, non-machinable die-cast aluminum construction features a unique ported arbor on the inner barrel of the spool for increase durability and decreased weight. This large arbor design allows for quick retrieval allowing you to keep the pressure on the fish, no matter how hard the fight is. Its compact carbon fiber drag is smooth and reliable in all types of environments. So, no matter if you're chasing trout in Montana or find yourself stalking tailing reds during the flood tide, the RUN fly reel is lite on weight, not features.

The **RUN 5/6** will change the way you think about lightweight trout reels.

The **RUN 7/8** will lighten up your saltwater or streamer rod with a carbon drag performance to handle anything that eats your fly.

Medium/Fast Action

REDINGTON WRANGLER OUTFITS

The Redington Wrangler fly rod combo kits separate themselves from other rod-and-reel combos because each rod in the model family is purpose-built for a specific fishing situation. The 9' 5-weight is the Trout model, designed as the do-it-all rod, while the Bass model is a 9' 7-weight. The Wrangler family even features a 9' 8 weight saltwater model as well.

POND 490-4

Medium/Fast Action

LINE WEIGHT	ROD LENGTH	HANDLE TYPE	PRODUCT CODE
4WT	9FT	A	39WP490K

Designed for any small water, pond, or creek fishing scenarios. The Crosswater reel is loaded with a Mainstream 4wt line and a RIO Powerflex 9' 4xtapered leader. Targeted to the needs of the average small water fly fisher.

TROUT 590-4

Medium/Fast Action

LINE WEIGHT	ROD LENGTH	HANDLE TYPE	PRODUCT CODE
5WT	9FT	A	39WT590K

Designed for any Trout fishing scenario. The Crosswater reel is loaded with a Mainstream 5wt line and a RIO Powerflex 9' 4xtapered leader. Targeted to the needs of the average Trout fly fisher.

TROUT XL 690-4

Medium/Fast Action

LINE WEIGHT	ROD LENGTH	HANDLE TYPE	PRODUCT CODE
6WT	9FT	A	39WT690K

Designed for any large Trout or Streamer fishing scenarios. The Crosswater reel is loaded with a Mainstream 6wt line and a RIO Powerflex 9' 4x tapered leader. Targeted to the needs of the large Trout or streamer fly fisher.

SALT 890-4

Medium/Fast Action

LINE WEIGHT	ROD LENGTH	HANDLE TYPE	PRODUCT CODE
8WT	9FT	B	39WS890K

Designed for typical Saltwater fishing scenarios. The Crosswater reel is loaded with a Mainstream 8wt line and a RIO Powerflex 10' 12lb tapered leader. Targeted to the needs of the average saltwater fly fisher.

ELITE GOLD XP

The Elite Gold XP line features a mid-length head and half-size heavy weight balances the ability to carry line against quickly loading the rod for shorter casts. The medium-long rear taper maintains line control for longer presentations, both in the air as well as on the water while mending.

RIO's Hard Mono Saltwater tippet is a very stiff, super abrasion-resistant nylon tippet material. Ideal for casting the largest flies and in tough winds to get the very best turnover.

POWERFLEX WIRE BITE

CODE	LBS	LENGTH
43R22145	20	15FT
43R22146	30	15FT
43R22147	40	15FT

The RIO Powerflex Wire Bite Tippet is a tough, flexible nylon-coated wire that's perfect for those sharp toothed critters. This knottable wire is super supple, allowing you to tie directly to the fly. Available in a 15 foot interlocking spool with our patented elastic tippet restraint.

FLY LINE BACKING

CODE	LBS	COLOUR
43R20500	20	CHART
43R20501	30	CHART
43R20510	20	ORANGE

A high quality super smooth braid that is 100% reliable. A good compromise between thinness and the ability to make blind splice loops. This backing is easier to knot than most other brands that are very thin but have too tight a weave for a blind spliced loop. Low stretch.

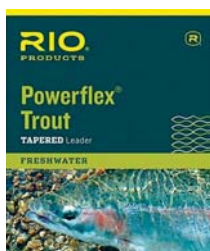

RIO TAPERED LEADERS AND ACCESSORIES

We have an incredible offering of the highest quality tapered leaders and accessories for the freshwater and saltwater fly fisher, each with their own formulation, taper design and material choice to ensure that the leader does exactly what it was designed to do - cast after cast, after cast. Whether you are fly fishing for Trout, Bonefish, Permit, Tarpon, Strippers or even toothy critters, you will find RIO has the right leader and accessory for you.

For the full RIO tapered leaders and tippet range, visit: www.rioproducts.com

Powerflex Plus, is made with VHT Technology, which results in the strongest Trout leader ever made.

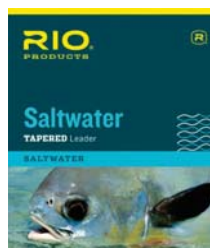

EURO NYMPH TAPERED LEADER

11-12FT	SIZE	LB
43R24703	0x/2x	15/8.5

Rio's Euro Nymph Leader Is A Uniquely Designed Tapered Leader, And Ideal For European Nymphing Techniques.

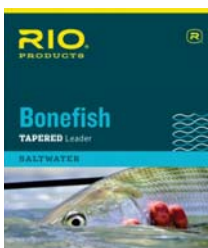

SALTWATER TAPERED LEADERS

10 FT	LB
43R24281	8
43R24285	10
43R24282	12
43R24283	16
43R24284	20
43R24055	25
43R24056	30
43R24057	40

RIO's Saltwater leaders are an excellent general purpose saltwater leader for a multitude of species. Powerful butt and taper design, maximum strength and abrasions resistance.

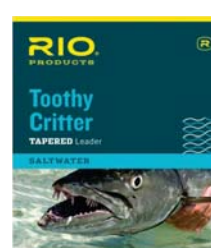

BONEFISH LEADERS

10 FT	LB
43R24261	8.8
43R24262	10
43R24263	12

RIO's Bonefish Leaders have a powerful taper design that easily turn over typical bonefish flies.

TOOTHY CRITTER

CODE	SIZE
43R24177	7.5ft / 30lb
43R24178	7.5ft / 45lb

Tough bite-resistant wire attached top a tapered nylon leader. Maximum strength and perfect for all species with sharp teeth.

ACCESSORIES

RIO Products has been developing the highest performing fly lines, leader, flies, and tippet in the fly fishing industry for over thirty years and their range of accessories certainly compliments that range.

Code: 43R26748

CRANKY KIT 2.0

Change lines quickly and efficiently as fishing conditions change with new Cranky Kit 2.0, now featuring a convenient silicone shim so lines can be wound off reels and stored in neat coils when not in use. Simply wind the line off the reel through the rod on to the fly line spool, unloop the line from the backing, then loop the new line to the backing and wind the new line on to the reel.

Code: 43R26052

HEADCASE

RIO Headcase is the ultimate shooting head case with tough 6mm storage bags arranged to allow easy viewing and flipping of heads, as well as mesh pockets for storing leaders and tippet spools. The bags are large enough to hold regular shooting heads, and 10 bags per case leave plenty of room for a varied selection of RIO heads.

Code: 43R26053

HEAD WALLET

Zipper closure at the top to keep your leaders safe and secure and the mesh helps dry them more quickly.

Code: 43R26055

LEADER WALLET

Comes with 6 pockets made from re-sealable plastic so your leaders stay in place and organized.

FLY LINE CLEANING KIT

Complete with four Wonder cloths and a 1 oz bottle of AgentX line dressing

Code: 43R26075

AGENT X DRESSING

AgentX Line Dressing is specifically formulated to enhance the performance of all modern fly lines. Treated lines will cast further, remain clean longer and float higher than untreated lines.

Code: 43R26079

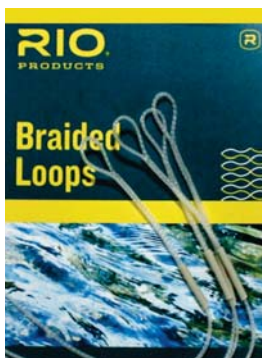

HEADGATE TIPPET HOLDER

The Headgate tippet holder is made from anodized aerospace aluminium with a built-in, replaceable line cutter. Comes loaded with five RIO Powerflex tippet spools.

Code: 43R26056

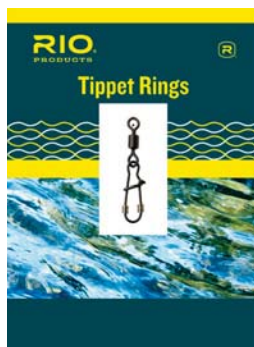

BRAIDED LOOPS

CODE	SIZE
43R26081	7 - 12wt
43R26082	3 - 6wt
43R26083	XL - 500gr+

A quick and easy way to attach leader to fly line or the backing to the line. 4 per pack with tubing.

TIPPET RINGS

CODE	SIZE
43R26032	2mm
43R26033	3mm

RIO Tippet rings are small, very strong lightweight, and make rigging and tippet replacement fast and easy.

SUPERFLEX PRODUCTS

The Superflex range of products has stood the test of time and after 70 years, are still the first choice for anglers, as well as by users in other professions such as shopfitting and hobbyist needs.

SUPERFLEX 7 STRAND - BROWN

480	1.70	62ST10480	X
645	2.00	62ST10645	X

Supertest 7x7 or 49-Strand wire is made from marine grade 304 stainless. Whilst it is thicker than 1x7, 7x7 is much more flexible and a lot more durable. This is the preferred wire when making hook rigs for skirted trolling lures.

SUPERWELD

TENSILE LBS	DIAM MM	CODE 10mts
18	0.48	SW1018
27	0.54	SW1027
40	0.60	SW1040
60	0.70	SW1060
90	0.85	SW1090
135	1.05	SW10135

Superweld 1x7 wire that allows anglers to rig leaders quickly & easily using the flame of a cigarette lighter. To rig the tag end of the wire should be twisted back upon itself, at which point the connection should then be passed back and forth over a light flame.

DOWNRIGGER WIRE

TENSILE LBS	DIAM MM	CODE 50mts
135	0.69	SF50135

The Superflex Downrigger 7-Strand stainless wire is perfect for all downriggers and trolling winches. Suitable for both freshwater and saltwater applications.

DELUXE CRIMPING PLIERS

Extra tough stainless steel power crimping pliers. Extra wide jaws with six sleeve positions, can crimp leader sizes from 50lb to 500lb.
Item code: 65SCRIMP

SINGLE SLEEVES

Single leader sleeves are recommended for use with Superflex 1x7 and Superlon 1x7 wire.
