LIFE JACKET STANDARDS

J.M.Gillies are proud distributors of its PFD range, manufactured and designed to the latest standard AS4758.1 2022.

Safety is our focus and the most important piece of equipment that you will ever need in and around the water is a high quality life jacket. At Life Jacket Solutions we have over 20 years' experience in the PFD/Life Jacket industry, so we know safety is of the utmost importance, but there is no need to sacrifice comfort.

In the range are basic Level 100 jackets, neoprene and water sports jackets through to the latest in inflatable jackets. Gillies has you covered with jackets from boating, fishing, rock fishing, water sports, jet skiing, SUP and general pool activities.

Our Level 100 and Level 150 ranges have roll over. This means when a wearer is face down in the water they will float back to a safe position within 10 seconds. Even dogs have been looked after with 2 ranges of pet vests.

Our large range consists of Level 50, Level 50S, Level 100, Level 150, Level 160 & Level 275 jackets.

CHOOSING THE RIGHT JACKET

Response life jackets are fully certified to AS4758.1 2022.

The Response range follows months of rigorous testing, optimisation and design iteration. All of this is to ensure our life jackets perform to the highest Australian standards and can withstand the harsh Australian elements.

Near shore help at hand, limited protection against drowning, requires active participation by wearer, for competent swimmers in specific specialist activities.

Near shore, help at hand, limited protection against drowning, requires active participation by wearer.

Near shore, help at hand, limited protection against drowning, requires active participation by wearer. Can be of any colour.

Near shore and offshore, within sight of land and light clothing.

Offshore, foul weather clothing.

Offshore, extreme conditions, special protective clothing, heavy equipment.

By Life Jacket Solutions

LEVEL 100 FOAM RANGE

This LEVEL 100 foam jacket has passed the roll over test. This Jacket will roll the wearer over to a safe position.

SERVICING

LJS inflatable jackets are self-service for recreational use.

The LJS jackets can be self-serviced by downloading the form at www.ljss.com.au and completing the service report. The LJS range of inflatables can be self-serviced every year for 3 years. On the 3rd year it must be serviced by an authorised service agent. For commercial use LJS jackets must be serviced by an authorised service agent every 12 months.

Before each use check webbing, stitching, buckle, reflective tape and whistle for any sign of damage or loss. These garments are not serviceable if any sign of loss or damage is detected, do not use jacket and replace with a new one.

WASHING INSTRUCTIONS

Wash in fresh water after use. Dry thoroughly in shade. Store in a dry ventilated position away from direct sunlight and harmful chemicals. Check life jacket regularly to ensure it is in good working condition.
